Support to CONAE (Argentina)

Mr Buckingham is currently providing support as/when requested, via the CSA, for two projects being implemented by Argentina's Comision Nacional de Actividades Espaciales (CONAE), see <http://www.conae.gov.ar/eng/satelites/saocom.html>. He is a member of external Expert Review Panel, responsible for reporting to the Inter-American Bank (IAB). The support is primarily for the SAOCOM L-band radar Earth Observation project, see <http://www.conae.gov.ar/eng/satelites/saocom.html>) planned to operate in collaboration with Italy's Cosmos SkyMed satellite radar EO system. Mr Buckingham also supported the bus design review for the NASA-CONAE SAC-D/Aquarius mission.

Mr Buckingham, photos taken near San Carlos de Bariloche Argentina on the occasion of the SACD/Aquarius Bus CDR in February 2009.

Photo with Project Manager Daniel Caruso of CONAE and senior technical personnel from CONAE and INVAP, the SAC-D bus primary contractor.
